

Notes from technology meeting. 12/7

Scott Mease has been called out of town and cannot be here.

Mr. Brusniak will also be out of town

Dr. Hines will also not be here.

Mission of this group analyze what we currently have

Look at the standards

Where are we going to go in three years

Plan must be fluid to go with the times

Michael has packet for everyone including school mission, yearly goals and the TIE paperwork from the diocese.

Mrs Wolfe

Would like the pre k program to have a smart board

Mrs. Knight

Leslie schaffer

Good instruction from the start

John whisler

Keeping the ratio of computers to kids low

Mrs schrakamp

Wants to use computers with behavior students

Would love to see us go to one-one in 7-8

Mrs. Kantner

Interest of the teachers to stay up to date the with the new technology.

Ellen Oliver

Having more integration and one to one consistently so students and teachers all working on the same format

Anita detmer

Continuity from class to home and have students and teachers able to work on e same software

Michael Davies

Look to the future to see what we can stretch our brain but be realistic about our constraints

Mary meinardus

To keep ourselves current....have technology support the equipment
Possible topics from the diocese
One to one situations
Going to the cloud
Virtual servers?

Parent funding at Srs have always been positive

Try to establish some type of plan that would the likelihood of this group meeting again
or issuing tasks to work out on their own.
Probably need to meet again in January and February.
Possibility of setting up a wiki or web 2.0 tools

Before our next meeting

What are our goals and needs assessment
Budget, professional development, ongoing evaluation

Evaluate the vision statement and see if it matches up with expectations
and wants for the school

Look at our individual backgrounds to search out survey or instrument that we may be
able to use.
